The Grand Staircase-Escalante National Monument (GSENM) is a United States national monument that originally designated 1,880,461 acres (7,610 km<sup>2</sup>) of protected land in southern Utah in 1996. The monument's size was later reduced by a succeeding presidential proclamation in 2017. The land is among the most remote in the country being the last to be mapped in the contiguous United States.
