In the computer industry, vaporware (alt. vapourware) is a product, typically computer hardware or software, that is announced to the general public but is never actually manufactured nor officially cancelled. Use of the word has broadened to include products such as automobiles. Vaporware is often announced months or years before its purported release, with few details about its development ...

Stoning, or lapidation, is a method of capital punishment whereby a group throws stones at a person until the subject dies. No individual among the group can be identified as the one who kills the subject. This is in contrast to the case of a judicial executioner. Often slower than other forms of execution, stoning within the context of contemporary Western culture is considered a form of ...
