Tuckman's Stages model. Bruce Tuckman reviewed about fifty studies of group development (including Bales' model) in the mid-sixties and synthesized their commonalities in one of the most frequently cited models of group development (Tuckman, 1965). Tuckman's model of group development describes four linear stages (forming, storming, norming, and performing) that a group will go through in its ...

Situational leadership theory, or the situational leadership model, is a model by Paul Hersey and Ken Blanchard, developed while working on Management of Organizational Behavior. The theory was first introduced as "life cycle theory of leadership". During the mid-1970s, life cycle theory of leadership was renamed "situational leadership model." In the late 1970s/early 1980s, the authors both ...

In my work helping leaders navigate major transitions, I have found that most people, like David, instead need a framework for taking over and transforming a team. That's what this article provides. First, leaders must assess the human capital and group dynamics they have inherited, to get a clear picture of the current state.
